Comment:

The reported motor vehicle have been repeatedly observed in STETTIN. were also observed with HH units of the Group of Occupation Forces Germany in the FORSDAM area and sporadically in the PRENZLAU-PASEWALK-CREIFSWALD area. also reported from the ROSSLAU area.

The connections possibly existing between the Soviet units in the mentioned areas in the Soviet Zone of Germany and the Soviet units stationed in the STETTIN area have not been determined. It can be assumed that only some small Soviet units are stationed in STETTIN, guarding storage sites in the harbor and controlling the Polish line of demarcation.
